DARK'S FLORAL MAGAZINE

Volume XLI, No. 6.
Established 1871.

JUNE, 1905.

5 Years 45 cents.
1 Year 10 cents.

THREE GLORIOUS ROSES.

SPECIAL JUNE OFFER.

I wish that everyone of my thousands of patrons could enjoy the beauty of the Mam an Cochet Roses, and to encourage their culture and promote the realization of this wish I make the following special marvelous offer;

Send me a Dollar order for plants before July 10th, and I will add to your order

- 1 *Splendid Pink Mam an Cochet Rose, well rooted.*
- 1 *Splendid White Mam an Cochet Rose, well rooted.*
- 1 *Splendid Clotilde Souperf Rose, well rooted.*

You thus get 28 plants for \$1.00, including the three Choice Roses. If you do not care for so many plants see your neighbors and get up a club, swelling the order to \$1.00, and thus get the choice Roses for your trouble. If you have any of these Roses and prefer others instead name them, and I will try to accommodate you. If you do not care to order other plants, and want the Roses alone, the price will be 10 cents each, or the three plants for 25 cents. The plants are in fine condition, well rooted, healthy and vigorous, and can be either potted or bedded out when received. All plants are carefully packed and mailed free of expense, and their safe arrival is guaranteed. Look over the list on another page and see the great variety I offer, many very choice, that could not be obtained elsewhere for three times what I ask. Now is the time to buy plants for your windows, in winter, to have fine large blooming plants in winter time. I have a full supply of every thing advertised.

Order before July 10th, if you wish the three choice Roses. When these Roses are wanted the Pink Rambler offered at head of list will not be sent. See your friend and get up a club at once.

DESCRIPTION.—The Cochet Roses are the most vigorous of Tea Roses, begin to bloom early and bloom freely the entire season. They are hardy, healthy, and do well in any good soil. The flowers are of the largest size, are borne on long, stiff stems, are long and pointed in bud; full double and graceful in flower, and are of the most exquisite texture and colors. The Pink Cochet is deep rosy pink touched with superb golden yellow; White Cochet is fine white, sometimes tinted flesh. Both are deliciously fragrant and everblooming, either in pots or beds. Clotilde Souperf is variable white and pink. Order before July 10th.

**GEO. W. PARK, Editor and Publisher,
LaPark, Lancaster Co., Pa.**

A Few Choice Flower Seeds.

Acacia lophantha, beautiful Fern-tree; fine pot plant.
Ageratum, new large-flowered dwarf sorts, mixed.
Alonsoa Myrtifolia and other fine sorts in splendid mixture; beautiful flowers.

Alyssum, New Carpet, mass of large white clusters.

Amaranthus, new quadricolor, superb variegation.

Antirrhinum, (Snapdragon), Giant Fragrant mxd.

Arctotis grandis, new lavender African Daisy.

Aster, New Hohenzollern, flowers 5 to 7 inches across, of many colors; appear like feather balls.

Aster, Peony-flowered Perfection Improved, incurved flower of enormous size; all sorts, special mixed.

Aster, New Victoria, splendid large flowers, very double, finely imbricated petals, all colors mixed.

Aster, Ostrich-feather, enormous flowers with twisted petals, like Japan Chrysanthemum; all colors mxd.

Aster, Queen of Elephants; earliest of Asters; many fine colors mixed; splendid for either pots or beds.

Balsam, Park's Camellia-flowered, as double as a Rose and of all shades as well as spotted; mixed.

Browallia, New Giant, elegant large blue flowers.

Bellis, Giant Double Daisy, charming hardy edging fine for pots; white, rose, crimson, red, finest mixed.

Calliopsis, New Compact, crimson, gold, etc., mxd.

Calendula, New Large-flowered, all colors, mixed.

Candytuft, hardy annual, special mixture all sorts.

Centaura, Crozy's Gladiolus-flowered; finest mixture.

Capiscum, Ornamental Peppers, finest mixture.

Carnation, New Hybrids, early, large, scented, double flowers; all hues mixed; bloom first season.

Celosia, Dwarf Coxcomb, crimson, rose, etc., mixed.

Celosia, Feathered, new, plumey, all colors mixed.

Centaura, Double Bachelor's Buttons; fine mix'tre.

Centaura, King of Blue Bottles; large blue, fine.

Centaura, Imperialis, New Giant Sweet Sultan; large and fragrant; white, lilac, rose, etc., mixed.

Cosmos, Early-flowering, superb fall flowers, mixed.

Dahlia, Double and Single, finest mixture of all colors, as easily raised as Zinnias.

Delpphinium (Larkspur), finest annual sorts mixed.

Dianthus Chinensis, lovely Pinks blooming the first season; all colors and markings in finest mixture.

Dianthus Hedewigii nobilis, new Noble Pinks.

Diascia Barberae, the new handsome annual from Africa; pretty and easily grown.

Eccremocarpus scaber (Calampelis), a superb vine; flowers in clusters in profusion; mixed.

Eschscholtzia, California Poppy; all colors mixed.

Gaillardia grandiflora, new compact, a superb summer bedding hardy perennial.

Hebenstreitia Comosa, the new "African Mignonette"; easily grown, deliciously sweet.

Helianthus, Sunflower, double and single, mixed.

Hibiscus, New Giant, a splendid perennial blooming first season; huge golden flowers; 6 to 10 feet high.

Kochia scoparia, Summer Cypress; fine foliage.

Lobelia, New Perpetual Blue, showy basket and edging plant; flowers large, intense blue with white eye.

Mavigold, French and African, finest double mixed.

Mignonette, Sweet, new, richly scented varieties, white, red, yellow, finest mixture. Common sort, excellent for bee pasture, ounce, 8 cts., pound, \$1.00.

Minulus, large, Gloxinia-flowered, tigrid varieties, yellow, orange and white, and red, spotted, mixed.

Mirabilis, Four-o'clock, special mixture of new, dwarf, spotted-leaved sorts, all colors.

Myosotis, Forget-me-not, special mixture of the new, large-flowered, early varieties, all colors.

Nemesia strumosa, new colors, large-flowered, showy and beautiful, mixed.

Nicotiana Sanderae, the superb, New Carmine Star

Flower, open day and night; elegant for pots or beds; very profuse-blooming, exquisitely fragrant and exceedingly beautiful. Everybody should have this grand novelty; 3 pcts. 25 cents, 1 pkt. 10 cents;

large packets 25 cents.

Nicotiana, mixture of the sweet-scented kinds.

Onothera, Evening Primrose, golden bloom, mixed.

Park's Star Flower, a grand semi-tropical bed-

ding and pot plant; grows 6 to 10 feet high, with

enormous leaves and great heads of fragrant flow-

ers all summer. Easily grown.

Poppy, a superb mixture of Carnation-flowered, Ra-

nunculus-flowered, Peony-flowered, Shirley, etc.

Pansy, Reemer's Giant Prize; complete mixture of

all colors; plants vigorous and bushy; flowers of

enormous size, fragrant and exquisitely marked.

Petunia, Single and Double, special mixture of the

large-flowered and new varieties.

Portulaca, Double and Single in fine mixture, all

colors from white to rich crimson, some superbly

marked and striped; mixed.

Ricinus, New Giant sorts mixed.

One packet 3 cts, 4 packets of a kind, 10 cents.

Park's Floral Guide for 1905, also Park's Book of Novelties and Specialties. Illustrated. FREE.

GEO. W. PARK, LaPark, Lancaster Co., Pa.

Phlox Drummondii Grandiflora, large-flowered free-blooming varieties in all colors.

Salpiglossis, new large-flowered, finest mixed.

Salvia, large early-flowered kinds, complete mixture.

Salvia pretensis, rare and elegant hardy perennial.

Scabiosa, Mourning Bride, giant double-flowered, white, rose, lilac, scarlet, black, blue, etc., mixed.

Schizanthus, Butterfly Flower, Orchid-like mixed.

Ten Weeks' Stock, New Giant Excelsior, the earliest blooming of Stocks; spikes of large, rose-like, richly scented flowers in bright colors; mixed.

Tropaeolum (Nasturtium), Tom Thumb, dwarf, splendid for bedding or for pots; very rich colors, free-blooming all summer; finest mixed. Oz. 15c.

Viola, Tufted Pansy, finest mixture of all colors from white to deep purple, many variegated; first-class for beds; hardy, mixed.

Verbena, Mammoth, very large, sweet-scented flowers; big clusters, showy in beds; mixed.

Wallflower, New Parisian; spikes of sweet bloom.

Zinnia, New Mammoth, in splendid mixture of all colors; flowers almost as large and showy as Dahlias, plants a mass of bloom the entire season.

Everlastings—*Acroclinium*, mixed; *Ammobium alatum*; *Gomphrena*, mixed; *Helipterum sanfordi*; *Helichrysum monstrosum*, mixed; *Rhodanthe*, mixed; *Gypsophila*, mixed; *Xeranthemum*, mixed. I can supply separate packets of all of these.

ORNAMENTAL CLIMBERS.

Cardiospermum (Love in a Puff), in variety, mxd.

Cypress Vine, white, rose and scarlet, mixed.

Cobaea Scandens, lovely purple bells; climbs 30 ft.

Dolichos, Hyacinth Bean, superb mixture, all sorts.

Gourds and Cucumbers, grand special mixture.

Gourd, Nest Egg, pretty vine fruit used as nest eggs.

Gourd, Dishcloth; showy, golden bloom; fine vine.

Humulus, Variegated Hop, a splendid annual vine.

Iponmea, finest mixture of all varieties; handsome.

Moonflower, fragrant bloom, special mixture.

Morning Glory, new large-flowered, all mixed.

Morn. Glory, New Japanese, New Giant, mxd.

Maurandya, charming vine, all colors in mixture.

Scarlet Runner, everblooming, mixed.

Sweet Peas, Puff's large-flowered, best new mixture; lb. 50 cts., $\frac{1}{4}$ lb. 15 cts., oz. 5 cts.

Thunbergia, excellent, free-blooming vine; mixed.

Tropaeolum, Nasturtium, giant climbing, large-flowered, best mixture of all colors; $\frac{1}{4}$ lb. 75 cents, $\frac{1}{2}$ lb. 20 cts., oz. 6 cts.

BIENNIALS AND PERENNIALS.

Aquilegia, 15 sorts mixed.

Campanula, 15 sorts mxd.

Carnation, double, mixed.

Perennial Larkspur, mxd.

Foxglove, all kinds mixed.

Hollyhock, double mixed.

New Hybrids, mixed.

Linum, Flax, mixed.

Pink, Pincotees, mixed.

Sweet Rocket, mixed.

Sweet William, Giant, mxd.

Wallflower, finest mixed.

SEEDS OF WINDOW PLANTS.

Abutilon, hybrid, mixed.

Achimenes, finest mixed.

Primrose, Garden, mixed.

Primrose, Garden, mixed.

Perennial Cosmos, mixed.

Sweet Rocket, mixed.

Geranium, finest mixed.

Gloxinia, choicest mixed.

Grevillea, Robusta.

Heliotrope, large, mixed.

Lantana, new dwarf, mxd.

Primrose, Chinese, mixed.

Primula obconica, mixed.

Forbesi, Baby, mixed.

Solanum seaforthianum.

Smilax, Boston.

Streptocarpus, fine mixed.

Cyclamen, Giant, mixed.

Cyperus, Umbrella Plant.

Torenia, large, mixed.

Choice Pot and Medicinal Herbs.

Carobet.

Caraway.

Catnip.

Chamomile.

Coriander.

Dandelion.

Dill.

Fennel, sweet.

Horehound.

Lavender, sweet.

Marjoram, sweet.

Mustard.

Pot Marigold.

Rosemary.

Sage.

Summer Savory.

Tarragon.

Summer Thyme.

Wormwood.

Sweet Basil, pur-

ple, bushy com-

pact; ornamen-

tal pot plant.

Tansy.

Summer Savory.

Tarragon.

Miscellaneous.—Evergreen Broom Corn, 1 lb.

mailed, 20c., 25 lbs. or more by express, not prepaid, 7c,

per pound. Sunflower, Russian, 1 lb. mailed, 20c., 25

lbs. or more by express, not prepaid, 7c. per lb. White

Dutch Clover, for Bee pasture, 1 oz. 6c., 1 lb. 50c.

Mushroom Spawn (Brick), per lb. 20c.

Park's Superior Lawn Grass, the best of all

lawn grass mixtures, makes a fine lawn the first

season, and remains permanent; lb. prepaid, 25c., oz. 5.

Park's Superior Lawn Grass, the best of all

lawn grass mixtures, makes a fine lawn the first

season, and remains permanent; lb. prepaid, 25c., oz. 5.

Seeds all first-class. For these and others, see

BOB WHITE.

Across the fields I hear you calling,
Bob White! Bob White!
While evening shadows soft are falling,
Bob White! Bob White!
And nearer comes your clear refrain,
Adown the windings of the lane,
Where Mabel weaves her Daisy chain,
Bob White! Bob White.

And now I see her lover coming,
Bob White! Bob White!
A winsome tune he too is humming,
Bob White! Bob White!
Yet Mabel feigns a shy surprise,
And turns from him her hazel eyes,
Expectant joy she thus denies,
Bob White! Bob White!

You called your mate from forest hiding,
Bob White! Bob White!
And to your side she now is gliding,
Bob White! Bob White!
But Mabel weaves her Daisies there,
And seems not for his voice to care,
Though blushes make her face more fair,
Bob White! Bob White!

Ruth Raymond.

Bradford Co., Pa., Mar. 14, 1905

CORRESPONDENCE.

Mr. Park:—I would urge everyone who loves foliage plants to try *Acacia lophantha*. It makes a fine plant for the window, with its Fern-like foliage. It is quite interesting to watch it close its leaves in the evening, then open them again in the morning. Some call it the sleeping plant.

Mrs. W. N. Fannin,

Campbell Co., Ky., Oct. 21, 1904.

Mr. Park:—I saw a very bright flower bed last summer. It was along an old fence that was very unsightly and always half hidden by Burdock and other weeds. The ground was spaded up along the fence and planted with Double Hollyhocks and Hardy Poppies. They began blooming in July, and the latter part of August it was a row of the brightest flowers.

Aunt Violette.

Crawford Co., Ohio., March, 9, 1905.

FREE PAINT SAMPLE OFFER

leads, varnishes, dry colors, stains, brushes, sundries, etc.
FREE BOOK HOW TO PAINT. With the color sample book we will also send you our free book *How to Paint*, showing by means of pictures and simple directions just how anyone without any previous experience can do a fine job, also just how much paint is required to cover a given space, how to order, how to select colors, kind of paint to buy, all valuable information, makes everything so plain that anyone can order and do the work successfully.

50c per gallon for highest grade Seroco Weather-proof Mineral, Barn, Roof and Fence Paint.
85c per gallon for highest grade ready mixed house paint. Our Seroco, our own special ready mixed paint for houses, for wood, brick, stone or iron surfaces, for finest inside finish or coarsest outside work, is sold under our binding guarantee as the best paint made, will cover double the surface, last twice as long, at one-half the cost of other paint, never cracks, peels or blisters, guaranteed for five years, and will look better at the end of five years than other paint will after one year. Testimonials from painters everywhere and color samples of Seroco in our free color sample book. If you want to paint your house, barn or other buildings, don't fail to get these **2 BIG FREE PAINT BOOKS AND SAVE ONE-HALF ON THE PAINT YOU NEED.** Address, CHICAGO, ILLINOIS.

RHEUMATISM

Wonderful New External Remedy
Curing Thousands. Any Rheumatic Sufferer May Try It Without Cost.

Send Your Address and Get A Dollar's Worth FREE.

I have a sure, quick and lasting cure for Rheumatism. I cure it by means of Vibro Discs, a wonderful new appliance which is used exter-

nally and draws out the poison from every part of the system. It is the wonder of the age, and a godsend to Rheumatic sufferers. There is nothing like it, and nothing equal to it. It banishes pain as if by magic, and conquers this dread disease in all its cruel forms and stages. It is safe, simple and convenient for home use and roots out the acid venom so thoroughly that no relapse or fresh attack can occur. Prove these claims yourself by testing the remedy at my expense. I will send you, absolutely free, four of these Vibro Discs—

a full dollar's worth—if you simply send me your name and address. This is an absolute gift, and I shall neither ask nor accept pay for it now or in the future. Can you afford to continue in pain and misery when you can get this marvelous new and guaranteed treatment simply for the asking? Write me to-day and I will send you the treatment at once and with it an elegant illustrated book on Rheumatism, all free and prepaid. Don't send any money—not even a postage stamp—but send your name and address **THIS VERY DAY.**

PROF. S. M. WATSON, Dept. 50 Battle Creek, Mich.

I PAY SPOT CASH

For **Military Bounty Land Warrants** issued, to soldiers of any war. Write me at once. ad.

Elegant House Ferns.

These Elegant Ferns for Room Decoration, Only 10 cents each, one plant of each, --3 plants-- for 25 cents, mailed, post paid.

The Boston Fern.—One of the most vigorous and easily grown of all Ferns is the Boston Fern. Its fronds are sword-shaped, long, gracefully arched, and of a rich green color, freely produced from the roots. It thrives in a pot or vase either in sun or shade, and always excites admiration and praise. It is one of the most graceful and beautiful of foliage plants, and should be in every collection. Price, 10 cents each, 3 plants 25 cents.

The Pierson Fern.—This is a sport from the Boston Fern, and is even more beautiful, though the fronds are much broader and have the appearance of a giant plume. The plants are not so simple or graceful as the Boston Fern, and not so steadfast in character, but by some it is preferred to the Boston Fern. It is certainly a desirable decorative plant, and one of the most beautiful of cultivated Ferns. Price, 10 cents each, 3 plants 25 cents.

The Compact Sword Fern.—This has narrow, erect fronds, stately and handsome, and very freely produced. It is more dwarf and bushy than the preceding sorts, but none the less desirable, being elegant in habit, and contrasting well as a foliage plant with other subjects of the window. It is a fine companion for the other sword Ferns, and of superior utility for table decoration, while it is of the easiest culture. Price, 10 cents each, 3 plants 25 cents.

For 25 cents I will mail one fine plant of each of the above Ferns (3 plants) packing carefully, paying postage and guaranteeing safe arrival. Five lots (15 plants) for \$1.00. Order this month.

PARK'S FLORAL MAGAZINE

A MONTHLY JOURNAL OF FLORICULTURE

Vol. XLI.

June, 1905.

No. 6.

THE LILY OF THE VALLEY.

Gentle Lily of the Valley,
One by one your voices rally,
Modest, white and ever meek,
'Neath your leaves for these we seek.
Could I choose but just one flower—
My companion for each hour—
You'd choose so frail and sweet,
You of all would be most meet.

Sagadahoc Co., Me. Alice May Douglas.

CALCEOLARIA HYBRIDA.

THE herbaceous hybrid Calceolarias are lovely pot plants for the window garden or conservatory when well-grown.

The flowers are freely produced in early spring upon plants started from seeds during the previous summer, and as they are odd in shape and attractive in color and variegation they are generally admired.

Seeds of a good strain should be obtained in June or early July, and sown in shallow pans in finely sifted soil composed of woods earth and sand. Press the surface smooth and water to fill up the pores and prevent the seeds from washing down into the soil. Before sowing press smooth again and mark rows, in which sow evenly and thinly, covering

very sparingly. Keep the soil moderately moist, and shade from the hot sun. When large pick the little plants out and set them two inches apart in such soil as recommended for the seeds. Later move the plants into three-inch pots, and as the roots begin to crowd again give them eight-inch pots,

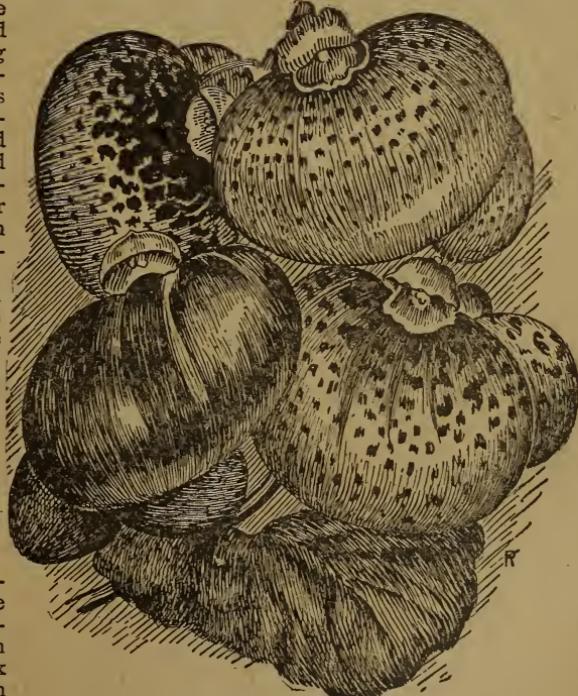

in which they may be brought into bloom. In the larger pot use coarser compost, water occasionally with liquid manure, and shade from the hot spring sun. Give support as the plants grow. Keep cool and shaded while flowering, and water freely, giving plenty of air. Seeds start promptly and with some experience bring satisfactory results. See engraving of a group of the flowers.

Scilla Clusi.—This is the name by which *Scilla peruviana* is now commonly known. It is a hardy, bulbous plant bearing dense trusses of blue or white flowers. The bulbs

are as large as those of Daffodil Narcissus, and as easily cared for. They are spring-blooming when planted out, but when grown in pots, treating as you would Hyacinths, they may be had in bloom in the window in winter. Should the tops become frozen when grown in the window set the bulbs away till spring, then bed out. They will renew their growth and recover their vitality.

Euonymus.—The beautiful evergreen species of Japanese Euonymus, *E. Japonica aurea variegata* and *E. radicans variegata*

are both perfectly hardy. The former makes a lovely hedge, and for covering a wall or building the latter is unsurpassed, as its foliage is always attractive, whether in summer or winter. The former is useful as a specimen plant instead of the old-fashioned box, which is often winter-killed.

CALCEOLARIA HYBRIDA.

Park's Floral Magazine.

A Monthly. Entirely Floral.

Geo. W. Park, Editor and Publisher.
LA PARK, LANCASTER CO., PA.

CIRCULATION.—The actual circulation proven when required, is 375,000 copies monthly. No free distribution to promiscuous lists of names. Advertising offices 713-718 Temple Court, New York City, N. Y., The C. E. Ellis Company, Managers, to whom all communications about advertising should be addressed.

SUBSCRIPTION PRICE, 45 cents for five years, prepaid
Trial subscriptions of a year, 10 cents.

THE EDITOR invites correspondence with all who love and cultivate flowers.

JUNE, 1905.

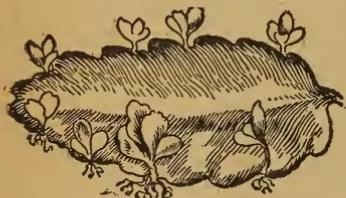

Circulation Bulletin.

Number of copies printed of Park's Floral Magazine, as indicated by press counters, for May, 502,200.

Number of copies mailed of Park's Floral Magazine, as indicated by Postoffice receipts, for May, 500,525.

Tobacco Refuse.—This material, which may be obtained at any cigar factory, is not only valuable for making a tea to spray upon insect-infested plants, or to use in smoking such plants, but when chopped up and mixed with the potting compost it will destroy insects in the soil and provide a valuable fertilizer. It should be used for enriching the soil wherever it can be obtained.

BRYOPHYLLUM, FIGURE 5.

Propagation.—*Primula Obconica* is propagated from seeds, as also *P. Chinensis*, *P. floribunda*, *P. Forbesi*, and most other species. Some of the hardy kinds, especially *P. veris*, in its numerous varieties, are sometimes propagated by division, though the method is a slow one. All of the species of *Asparagus* are propagated most satisfactorily from the seeds, which start quickly and develop healthy plants.

THE LARGE-CUPPED BRYOPHYLLUM.

FROM India we have a plant belonging to the Order Crassulaceæ which is prized by many not only for its handsome, succulent foliage, but for its curious,

BRYOPHYLLUM, FIGURE 1.

a flower cut in two longitudinally, showing half of the calyx, half of the stamens and half of the corolla with the constriction near the base; fig. 2 a leaf which has lain upon the soil in a shady place, and developed plantlets along its serrated

FIGURE 2.

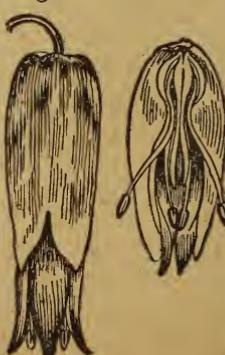

FIG. 3.

margin. The plant thrives in loamy soil, sparingly watered, and where it gets plenty of sunlight. It blooms the second year when grown in a small pot, the buds and flowers making a display for several months during the spring. It is readily propagated either from leaves or cuttings.

FIG. 4.

THUNBERGIA LAURIFOLIA.

A RARE and very beautiful pot vine for the window or conservatory is *Thunbergia laurifolia*, often known as *T. Harrisii*, and sometimes as *T. grandiflora*.

THUNBERGIA LAURIFOLIA ON A TRELLIS. The plant is of vigorous growth, quickly covering a trellis, or twining around the window when given string support. The foliage is abundant and very graceful, and the buds come in great clusters, twenty-five or more in number, and open successively for several weeks, not more than three or four developed specimens appearing at the same time. The Campanulate flowers from two to three inches in diameter, are a charming lavender blue with golden markings in the throat, and are very pleasing in form as well as color. A trellis covered with this vine in full bloom is wonderfully attractive, as the engraving indicates, and the beauty of the flowers and bud clusters may be imagined from the sketches of these here given.

BUD-CLUSTER.

The plants should have ample room at the roots, and a string, or trellis support. They thrive in rich, tenacious soil with good drainage, and should have a rather sunny

FLOWER OF THUNBERGIA LAURIFOLIA.

place except when in bloom, when shade is necessary to keep the flowers in good condition. Plants are of easy culture, and should be popular for the window.

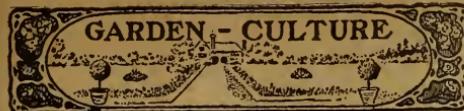

Sansevieria Zeylanica.—This is a succulent, variegated-leaved plant from the East Indies. It is erect in growth, and makes a fine appearance as a window plant. It is of easy culture, requiring only rich, porous soil, a warm, equable, moist temperature, plenty of water while growing, and a sparing supply while resting, the resting period being in winter. Avoid disturbing its roots. Let the young plants remain upon the parent, shifting into a larger pot as needed, until the clump becomes too large, when division may be necessary. Removing the young plants or in any way disturbing the roots is detrimental to growth, and should be avoided. Partial shade during the heat of summer is beneficial.

Chrysanthemum Fungus.—A fungus sometimes troubles Chrysanthemum plants, appearing as brown spots upon the leaves. If the affected leaves are removed and burned when the disease first appears, it will prevent spreading to other leaves and to other plants, as the fungus is propagated by spores, which are as dust, and readily carried by the air. When the disease prevails spray the plants with bordeaux mixture. If this is not effectual remove the tops and burn them. Affected leaves should not be allowed to fall to the ground and decay, as this will perpetuate the disease.

Budding Roses.—Roses are easily budded, and when several buds of different varieties are set upon a strong stalk the effect is novel and interesting. The time to do the work is in August, when the bark will readily separate from the wood. Set the bud upon the north side of the stalk, when possible, and wrap with raphia, which should be left on till the next spring, then removed.

**EXOCHORDA GRANDIFLORA.**

A very handsome shrub or small tree is *Exochorda grandiflora*, a member of the Rose family, introduced from China. It grows rapidly, branches freely, and during the latter part of May, or earlier, according to latitude, every branch is a glorious mass of superb white flowers produced in clusters, as shown in the engraving. It is perfectly hardy, and a shrub of easy culture. Specimens do well in deep, rich soil in an exposed position, and grow from six to twelve feet high.

PÆONIES.

THE floral journals, one and all, are chanting the praise of these beautiful old flowers, telling how to grow them, and urging everybody to plant them. I don't need anybody to tell me of their good qualities. Since I was a little girl I've always loved "Pineys." Grandma had only one color, the old double scarlet or crimson. Call it what you will, it is a shade I have never seen in any other flower—magnificent is the word to express it—and a proud and happy girl I was when Grandma gave me one or two to carry to my teacher.

I wish Grandma could see mine to-day—a double row clear across the garden, containing forty clumps and six varieties. Some are cup-shaped, on long stems, rivaling the rose in fragrance and beauty; some so large their stems will not hold them up, but bear them to the ground unless supported. Others are branching, several on a stalk, and the smaller ones so dainty and feathery. Last year I simply reveled in their beauty, gathering armfuls daily.

The only fault I see in Pæonies is that one has to wait several years for results. They are very impatient of removal and simply will not bloom for some seasons after being disturbed. My choice kinds were given me by an old gentleman who heard me wish for some white and pink ones. How I prize them! I have one very pale pink that is simply exquisite—just a suspicion of a shade, like a Tea Rose.

The culture is so easy and simple. Plant in any good soil, in a good situation, then let them alone. Every fall cover several inches deep with old manure. In spring rake off and spade around them carefully. Do not break off the tender new shoots. Then let Mother Nature do the rest.

Lucy M. Murray.

Saratoga Co., N. Y., Dec. 1, 1904.

Tuberous Begonias.—I planted my Tuberous Begonias in very rich soil, in small lard pails. Set away in a dark place to start. In twelve days they were given some light and in two weeks were set on a stand on the piazza. They grew fast, and the foliage was as handsome as a Rex. When the flowers came they were beauties. The scarlet and the white one was most admired. They bloomed until frost. Every one who saw them marveled at their beauty. They are so very easy to start and manage. I will surely raise them every summer. They will please all who love a summer-blooming plant. The insects did not bother them at all.

Mrs. R. Trinkl.

Van Buren Co., Ark., Dec. 4, 1904.

PERENNIALS.

FOR the busy home-maker who wishes to have a fair variety of flowers in the home grounds, but who has little time, strength or money to spend upon them, nothing can be better than perennials for the main dependence. Most varieties are easily grown from seeds, and when once established give pleasure for years, with but little care. They bloom finely after the first year. It may seem a long time to wait, but if one can buy plants instead of seeds, one can have fine flowers the first year, and also select just the color desired. Seeds sown a little late will usually make strong plants able to endure the winter.

What can be better for a permanent bed than Perennial Phlox? Plants of this flower should be ordered, as the seeds do not seem to have the vitality of other plants, unless sown soon after ripening. They give a great variety of colors and markings.

The many colors of double Hollyhock make a fine background for other plants. Rudbeckia, Golden Glow, will brighten a lawn like sunshine in a dull day. The dear old Digitalis, and Delphinium, Foxglove, and Larkspur of our childhood days, were always a delight and are now much improved.

Linum, with its delicate foliage, and the bright blossoms almost seeming to float in the air, gives a charming effect.

Many varieties of Pinks, Carnations and Picotees are perfectly hardy, and their bright blossoms are always in demand for bouquets.

A number of vines are hardy enough to withstand our winters, others will come from self-sown seeds. Even though many annuals are grown, it is a mistake to neglect the perennials.

Aunt Eda.

Tioga Co., N. Y. Apr. 3, 1905.

Everlastings.—While not pretty plants when growing, the usefulness of Everlastings is unquestionable. Mine commenced to bloom early. I picked as they opened and hung to dry, head downwards, in a shady place. I have several bunches. Some of the blooms are as large as a fifty-cent piece, and in rich orange, red and yellow colors. Smaller ones came in clusters of pale pink, and others in white. All are pretty, and make a dainty winter decoration mixed with wild grasses.

Mrs. M. Richards.

Vernon Co., Mo., Oct. 8, 1904.

Pyrethrum roseum.—Pyrethrum roseum is a very desirable hardy perennial growing three feet or more high, and producing, for about three months in the season, rosy pink tassel-like flowers. Give it a partially shaded situation, plenty of room, and do not disturb its roots, and you will have in every way a satisfactory plant.

Dubois Co., Ind. Adela A. Ragle.

NYMPHÆA ZANZIBARENSIS.

I HAD a longing for Water Lilies and sent for seeds of *Nymphæa Zanzibarensis*. I planted them in cups of soil covered with sand, the seed sprinkled on the sand, and then covered about one-fourth inch deep with water. I kept the cups on the shelf attached to the stove until the seeds germinated, then placed them in the south window of a warm room. The plants were so fine and small at first I could hardly see them (like little green hairs), but small round leaves soon appeared. I only took care of five, keeping one in each cup. The last of May I set them in a sunny part of the yard in half-barrels; filled over half full of swamp earth mixed with old cow manure. I got no flowers the first season, but found that each plant needed a large tub to itself, and the next summer I planted them that way and had blossoms from July until frost killed the leaves and buds. They are not hardy, so I packed the bulbous roots in a small vessel of moist soil and put them away in a frost-proof room to await another summer, and I am still enjoying my Water Lilies.

Mrs. Edith L. Early.

Butler Co., Ohio.

Starting Perennials.—As it is more difficult to start perennials from seeds than annuals, a hint that helps may be welcome. Such seed needs even temperature, moisture and darkness, and then patience, as they often take weeks to germinate. Plant the seeds in the open ground in June. Cover thinly with light soil, and sprinkle over them chopped moss, the kinds used by florists in packing plants for mailing. Set an inverted flower-pot over the spot in which the seeds are sown to exclude the light, and mark the place so it will not be disturbed.

Amelia H. Botsford.

Phil. Pa.

Geranium maculatum.—This pretty native perennial is the Wild Geranium, or Crane's Bill, of our woods and fields, where it blooms in great profusion from May until August. The flowers are rather large, light purple in color, and the leaves three to five parted and borne on stems from three to six inches in length. It makes a very interesting border plant if grown in groups of from six to ten plants. It prefers a light, loamy soil and partial shade.

Nassau Co., N. Y. Chas. E. Parnell.

Hardy Chrysanthemums.—Why do we not see more Hardy Chrysanthemums? They are so easily raised and so beautiful. I have a great many—red, white, crimson, pink and flesh color—but none gives so much satisfaction as my yellow ones. They are always a mass of bloom in the fall, just when blossoms are scarce. I don't even trouble to mulch them, yet they winter fine.

Boulder Co., Col.

Pearl.

KÆMPFERI IRIS.

FROM seeds I raised quite a number of plants of the Japan or Kæmpferi Iris.

They surprised and pleased me much by germinating very readily. The seeds are flat, and quite large. I planted them with the edges standing up, in a box of fibrous soil, and covered about a quarter of an inch with sifted soil, pressed down evenly. I watered thoroughly at first, and then kept just moist and in a warm place until the wee, grass-like leaves appeared. They were transplanted to the open ground as soon as large enough, grew nicely during the summer, and have survived the winter. Although raising this kind from seeds is interesting work, and advisable where one already has some large, blooming size plants, I should not like to depend entirely upon the seedlings, as it takes some time for them to make large, blooming sized plants.

Flora Lee.

Dutchess Co., N. Y.

Carduus Marianus.—*Carduus Marianus* is a worthy rival among foliage plants

like Caladiums and Ricinus, and more easily grown than either. From the seed I raised a plant four feet in diameter and five feet high, and its curious crinkled

leaves were a shining silvery green and white, two feet long and five inches wide, edged with thistle-like spines. It is odd and beautiful.

Mrs. Z. M. Rozell.

McLean Co., Ind., Oct. 4, 1904.

Dianthus and Carnations.—My bed of Dianthus has been in bloom for weeks, and is a blaze of color. No two plants have blooms alike, and all are so large and beautiful. I keep the fading flowers picked off to prevent seeding, and insure more flowers. I have about a dozen Carnation plants that are budding. One has blossomed and has lovely cream-colored flowers faintly edged and striped with pink, and is so fragrant. It is very easy to succeed with Pinks and Carnations from seeds, and no plants are more satisfactory.

Mrs. C. A. Bramhall.

Brad. Co., Pa., Sept. 4, 1904.

Pansies.—Instead of raising my Pansy plants in boxes in the house, I plant in deep boxes out of doors and cover with boards until the seed is up nicely. I am very careful not to let the boxes get dry, for after they sprout a very little neglect will ruin them. When about an inch high I transplant. Sometimes I sow in March but that is rather early and the boxes may need the extra protection of an old carpet. My main bed is north of the house, but the earliest blossoms come from plants in full sun.

Boulder Co., Col.

Pearl.

POT CULTURE

THE PONDEROSA LEMON.

I WONDER how many of the readers invested in this novelty, and succeeded with it. I did, and feel constrained to relate my experience. I got a ten-cent plant a few inches high, in May, 1902, and in May, 1903 it bloomed and set several lemons, but all but two fell off when as big as a cherry. When as large as an egg, something knocked one of these off, and the other matured the next March. During that time the plant was moved, three, three-hundred-mile trips, with household goods, in a freight car, and the lemon hung on tightly through it all. I find it to be of the easiest culture. I gave it good garden soil at first, then used woods earth in repotting. It requires lots of water when growing. It does not grow constantly, but by fits it grows out rapidly for a time, then stops and matures that growth, then it starts out growing again. Its only enemy is scale, and that can be kept down by vigilance and handpicking. The fruit is very large, thin-skinned, juicy, and well flavored. Mine measured ten by eleven inches in circumference, and made eight pies. The tree is now three feet high and has numerous white, waxy sweet-scented blooms, and small lemons.

Miss L. Sheppard.
Carroll Co., Ark., April 18, 1905.

Eupatorium riparium.—I must tell you about my Eupatorium riparium, which is something praiseworthy and of very easy culture. It grew quite rapidly, and I soon found I had something beautiful for the hanging basket. I gave it a place in a sunny bow-window during the cold winter months, when the snow lay in drifting sheets outside, and something like zero weather made us gather around the hearth. It was then we enjoyed the flowers. The Eupatorium filled the upper part of one window with its drooping profusion of white blossoms, and, with Primroses underneath, you can imagine something about the beauty of it all for a country home.

Rae C. Plummer.
Onondaga Co., N. Y., Oct. 5, 1904.

Ruellia Makoyana.—A plant seldom seen is Ruellia Makoyana. Its dark, striped foliage alone is handsome, drooping around the sides of the pot; but when from the axil of every leaf a magenta-colored blossom appears it is truly a beautiful sight. The flower is shaped much like that of the Cypress Vine, but is larger in size. The plant wants all the winter sun, and, like a Geranium, is better in a small pot.

Ogle Co., Ill. Priscill V. Lansden.

TO GROW LEMON VERBENA.

WINTER a young plant of Lemon Verbena in the window garden the first year. The following spring put it in a four-inch pot and plunge below the surface in the ground, therefore the plant will grow as rank, and with as little attention, as if bedded out in the usual way. The pot simply keeps part of the roots intact when lifted in the fall and planted in a box. Winter in the cellar. When set out again arrange the long roots around the pot. Break it after a while. To make the plant grow fast, cut the branches often, leaving two joints. Three or more will then start where there was one.

Flora Lee.

Dutchess Co., N. Y.

Choice Begonia.—The choicest Begonia I have in my collection is Haageana. I bought it last spring. It has made a fair growth and seems stocky and healthy. The leaves are large, bronzy green above, and red below. The flower stems are red, and the flowers rose and cream white. They are a fair size, grow in large clusters, and last for three months. The whole plant is mossed almost like a moss rose.

Allen Co., Kan., Feb. 7, 1905. Lide.

Cineraria.—Last May I sowed a packet of Cineraria seeds, and treated the plants as directed by the Floral Magazine. They commenced blooming in November, and have continued in bloom all through an unusually cold winter. They are still full of buds and bloom. I have several fine young plants which grew at the roots of the old ones, and were removed with good roots and set by themselves.

Mrs. Geo. W. Cook.
Oswego Co., N. Y., Mar. 16, 1904.

Freesias Blooming.—If the lady who wrote in our Magazine that she thought it did not pay to keep Freesias more than one season, could have seen mine the past season she would have changed her mind, for they were larger and finer than last year. After they are through blooming I water and care for them until they ripen off, then I set them away in the dishes they grow in until the next September, then repot. This year I used about half sand from the road, and rich garden soil, and I had them in bloom for six weeks, or two months.

Genesee Co., N. Y. Mrs. Ida Clark.

America Geranium.—I received an America Geranium last summer. It was a tiny thing with a bud on it, but it has grown wonderfully and had eight clusters of bloom on it at one time. I am anxious to know what the Dryden Geranium would do with the same care.

Mrs. J. F. Haigh.

Bradford Co., Me., Apr. 24, 1905.

IN LILAC TIME.

In Lilac time the earth is fair
And all the blossoming world is young;
Over all the richly verdant hills
The glowing gems of May are flung.
The skies are blue, and in the trees
The robins sing their joyous lays,
Of youth and hope and flowers of spring,
In Lilac days.

In Lilac time the winter's past,
And glorious spring reigns everywhere;
Her wealth of richly tinted flowers
With fragrance sweet perfume the air;
They bloom in all their beauty bright
Along the winding forest ways;
And woodland paths are gay and light,
In Lilac days.

In Lilac time the southern breeze
Breathes on the opening flowerets rare;
Beneath the trees the emerald grass
Is strewn with snowy petals fair,
The forest shades are cool and dark,
And deep within the mossy ways
The silvery streams are murmuring low,
In Lilac days.

And yet amid the mystic joy,
And tender grace of spring's bright day,
Often to my heart there steals
A yearning thought of other Mays;
I think of one who walked with me
Along these winding woodland ways
She now lies sleeping neath the flowers,
In Lilac days.

In Lilac time long years ago
We wandered mid the starry flowers,
And time swift sped on joyful wings
Through all the dreamy golden hours;
But now I view that well-loved face
Through Memory's sad, regretful haze,
And look upon spring's charms alone,
In Lilac days.

But balmy breeze and opening flower
Whisper a message sweet and clear;
"In his own time you'll meet again
The lost one whom you held so dear,"
Above me smile the azure skies,
About me bloom spring's radiant maze,
And Heaven seems, oh, so near to earth,
In Lilac days.

Barry Co., Mich.

Lillian Ludley.

SPRINGTIME.

Why is it we are glad again,
Our tread so free, and light;
Before our joyous, happy eyes
All things seem gay and bright.

The sun is smiling tenderly
On all the earth below,
The flowers are peeping from the grass,
And gently breezes blow,

The cloudlets skim across the sky
Like sails upon a sea;
The birds are singing in the trees
Their blithe sweet melody.

There's music in the rustling leaves,
There's fragrance in the air,
There's freshness, joy and happiness,
And beauty everywhere.

Elsa Falk.

Scott Co., Iowa., Mar. 7, 1905.

HAYING TIME.

Dancing Daisies and waving Grasses,
Bow your heads, for your death is nigh;
Ere yet another bright day passes,
Dry, and withered, and quiet you'll lie,
Under the sun that brought you gladness,
Under the skies that beamed with love,
Lowly you'll rest in silent sadness,
And bring no joy to those above.

Buttercup gold and nodding clover,
Give the bee of your honey sweet,
Never again will the saucy rover
Garner it in his warehouse neat;
Give it all, you will never need it,
Tell your friend you must go away,
Never mind if he does not heed it,
Each thing lives its appointed day.

Nod farewell to your friend, the sparrow,
Throw a kiss towards the robin's nest,
She will watch from her quarters narrow,
And grieve to see you lie at rest;
Say good-bye when Buttercup passes,
He will die with the summer's breath,
Fragrant Clover and graceful Grasses,
The way of life's the way to death.

Farewell, friends, do you mind the dying?
None escape it by skill or might;
Ask the wind why 'tis ever sighing,
Ask the day why it fades to night.
Little Daisy, is life worth grieving?
Buttercup, do you fear to go?
'Tis a fickle world you are leaving;
Beyond is a better, yes, we know.

*Marion Stuart Wonson,
Essex Co., Mass., Mar. 31, 1905.*

BUTTERCUPS.

Are they under enchantment,
These flowers holding up
All through field and meadow
A golden cup?
Can it be that King Midas
Passed by in the night,
And 'neath touch of his magic,
This morn they're so bright?

All polished so smoothly,
The yellow cups gay,
By unseen fairies,
In the passing winds sway
Amid the green grasses;
Their chalices light,
Catch gems of the dewdrops,
And sun jewels bright.

Rare treasures of nature
The flower cups hold,
That are proffered to mortals
Of bright fairy gold;
'Neath skies warm and sunny,
The brook sings a tune,
Of the Buttercups brilliant
At the shrine of young June.

Merrimack Co., N. H.

Ray Lawrence.

PLANTING OF AN OAK.

The tender twigs and little roots
Put in the ground thys warm day
In coming years will bear rich fruits,
To make more glad our weary way.

Its shade some hot mid-summer's noon,
May prove a gift of priceless worth,
And Nature for this cheerful boon,
Has won the thanks of all the earth.

It may some furious storm abate,
Or build a home for peace and joy;
Or yet, alas! it may be fate
Will make the Oak the lightning's toy.

Waukingum Co., O.

Erle Greiner.

THE LARGE-SPURRED COLUMBINES.

THE Large-spurred kinds of Aquilegia or Columbine are not only graceful and showy, but may be classed among the most beautiful and desirable of all perennials. The plants are entirely hardy and

summer. Most of them grow from two to three feet high, and become a mass of pendant, graceful swaying flowers, ranging in all shades of white, red, blue and yellow, while some are strikingly variegated. They thrive in either sun or shade, and a bed of the plants once established will last for

THE LARGE-SPURRED COLUMBINES.

readily propagated from seeds sown any-time during spring or autumn. Most of the seedlings will begin to bloom the next season. Some species bloom early in spring, while others do not show their flowers till

many years. Do not fail to get and sow seeds of these fine Columbines this month, if you do not already have them. You are sure of success with the seeds and seedling plants if you can give them ordinary care.

MARGUERITE CARNATIONS.

I HAD such success with a packet of these seeds, that I must tell of it. I think every seed planted grew. I raised eighteen plants, some having the Carnation foliage, some the foliage of the Pinks. There were four pinks, one very full white one, which became ragged as it opened; a very double one, white tinged pink, which held its shape, and a magenta and white, which is a rich combination. One was single. Of the rest all had the Carnation foliage, but some were single, and some were double, all borne on long stems, but none the size or fragrance of the Carnation remontant. The colors ranged from white to a crimson so dark that it was almost black, and everyone who saw it declared it was the richest color ever seen. I planted the seeds in the fall in a box, and by March they were large enough to be placed permanently. They bloomed profusely all summer, and during the winter had more or less flowers. They proved more than satisfactory.

Georgina L. Townsend.

Los Angeles Co., Cal.

West Windows.—A correspondent writing of plant windows, said that a west window was no place for plants in winter. Now I want to encourage those who have only a west window for plants. In one tenement in which I lived, a west window was the only window I could use. And such plants as I had! Three or four fancy-leaved Geraniums, three blooming Begonias, two Primroses which bloomed all winter. That year I took the prize for house plants at the Horticultural Exhibition. So take my advice and raise plants in a west window, rather than not have any plants.

R. T.

Providence Co., R. I., Mar. 18, 1905.

Flowers in Winter.—Last May I started Primroses, Cinerarias, Pelargoniums, Wallflowers and Heliotropes. In October I bought and planted Freesias, Zephyranthes and Oxalis. Then I took up Daffodils and potted them, and although we live in the highlands of New York, burn wood in a stove and have to shovel the snow from about the windows, I have had a grand flower show all winter.

Mrs. Geo. W. Cook.

Oswego Co., N. Y.

Abutilon.—Enfanta Eulalie does well bedded out. It is very floriferous, and can be wintered over in the cellar. Mine is three feet high. It requires little care.

Osage Co., Kans. M. C. Martin.

BEGONIAS FOR THE WINDOW.

GERANIUMS have for years been considered the standard class for the amateur's window garden. I would not, under any conditions, want to give them up, yet I find that the best of the winter-blooming Begonias give me many more flowers, besides being more ornamental when not in bloom, so I am inclined more and more to give them the preference. This year, from the time they were brought into the house, which I always do about October, to have them accustomed to their new location before the house has to be closed up tightly, I have had not less than six varieties in bloom at one time, and now have a dozen fine plants giving me their beautiful blossoms. I have a bay window almost filled with them, and with weather at zero and the ground covered with snow. How I do enjoy them!

I have twenty varieties, some quite small—only slips last fall. The dear little Dew Drop, with its dainty white flowers, is a treasure and my stand-by for flowers. It has been white with bloom ever since it was brought into the house, and it is a large plant. For me they do better bedded out in the summer in a shady place. I break off the old stems and put them into the ground, five or six together, and by fall they are nice plants. Treated in this way they blossom nearly all summer and are just as ready for their winter display. Rubra is one of the indispensables. I have another almost identical with Rubra, but it has delicate pink flowers, and is as free a bloomer. Paul Bruant is beautiful, both in leaf and flower, and is a true winter-bloomer. I have one bearing six clusters of blooms now, and another tiny plant has two. Feasti is desirable in every way, all the year round, but when it hangs out its large clusters of delicate pink flowers to brighten the cold dark days we prize it the most highly. President Carnot, when well grown, makes a fine plant, and the flowers are lovely.

Lide.

Allen Co., Kas., Feb. 7, 1905.

Note.—*Begonia Nitida alba* and *B. N. rosea* are fine sorts, deserving of a place in every collection. The same may be said of *B. weltoniensis*, and *B. Heracleifolia*, and *B. Sandersoni*.—ED.]

Plants and Gas.—Sansevieria, Begonias (except Rex), the common Sedum or Stonecrop, common Oxalis, Little Gem Sweet Alyssum, Mme. Gailbert Daisy, Madeira Vine, English Ivy, Cactus, Palms, Tradescantia, both purple and green; Primulas of all kinds, Bronze Geraniums, Gloxinias, Lilies and all kinds of ordinary bulbs have been grown successfully by me in rooms illuminated by four or more gas jets. High temperature and dry air cause more failures with house plants than gas. My rooms are on the fifth floor. Julius G. Lindsley.

Oswego Co., N. Y.

GROWING GERANIUMS.

In the spring of 1902 I bought four packets of mixed Geranium seeds and raised sixty plants from them. I sowed the seeds in a box holding about a peck of dirt. I used good, rich, sifted woods earth, packed the soil down with my hand and sowed the seeds evenly; then scattered on enough dirt to cover the seeds well. This soil I also firmed down well with my hand. I then gave them a good soaking with luke-warm water, taking care not to put it on in such splashes as to bring the seeds to the surface. Then I put them on a box behind the kitchen stove, covering the seed box with a thin cloth, to prevent the surface soil from becoming dry. As soon as the plants came in sight I transferred the box to a south window, and when danger of frost was over transplanted to the open ground. I sowed these seeds the 15th of March, and by the middle of September quite a number of the Geraniums were in bloom. When frost threatened and I had to pot them, most of them were in bud and bloom. There is scarcely a flower so well adapted for house plants, as well as outdoor bedding. With me the Geranium has been a great favorite for years.

Mrs. J. G. Johnson.

Dunn Co., Wis., Mar. 5, 1905.

Rooting Slips in Soil.—I break off slips of Roses with a heel of half-ripened wood, place in rich soil, turn a glass tumbler or jar lightly over them, and leave them this way for three weeks, keeping them well watered. At the end of three weeks they are usually well rooted. I then put a prop under one side of the jar, and allow them to have air in this way for one week. Then I remove the glass and allow them to grow undisturbed the rest of the summer. The Hibiscus and other hard wooded plants I root in this way also. I prefer rich soil to sand, as the sand dries out so quickly, and the young roots are injured.

Laura Jones.

Lincoln Co., Ky., Mar. 20, 1905.

Potting Soil.—When cleaning out flower beds, gather up all refuse, tufts of grass and weeds, and pile them in some out-of-the-way corner. Over this spread a little cow manure, and a layer of good garden soil. Occasionally throw some water on this heap. In six or eight weeks it will be rotted, and should be well worked over and mixed. It will be found to be rich, porous earth, fine for most potted plants.

Mrs. M. J. Ross.

Pottawatomie Co., Okla., Mar. 4, 1905.

BARK POTS.

WANTING to pot some little plants, but being away from home, with no flower pots, I tried instead strips of bark (peeled from logs) rolled the right size and pinned. Some were plunged in the ground, a few stood in saucers. Stones and moss were put in the bottom before setting the plants. Large plants had an extra roll of bark an inch outside of the other, and the space filled with potting soil. When the plant out-grew the inner pot, the bark was unpinned and lifted out, leaving roots in position to spread to larger quarters. I took fine healthy plants home, bark and all, and potted for winter.

Dutchess Co., N. Y.,

Flora Lee.

Glass For Starting Slips.—To prepare glasses for starting slips under: Take a round bottle and tie twine, or yarn string around the bottle where you wish to cut it. Then pour coal oil on the string and put a match to the string. Just as soon as the string burns off the bottle pour a little cold water on the bottle where the string was, and it will break off almost as smoothly as if it had been cut.

Sade M. Jones.

Fulton Co., Ark.

DAME NATURE HINTS When the Food is Not Shifted.

When Nature gives her signal that something is wrong it is generally with the food; the old Dame is always faithful and one should act at once.

To put off the change is to risk that which may be irreparable. An Arizona man says:

"For years I could not safely eat any breakfast. I tried all kinds of breakfast foods, but they were all soft, starchy messes, which gave me distressing headaches. I drank strong coffee too, which appeared to benefit me at the time, but added to the headaches afterwards. Toast and coffee were no better, for I found the toast very constipating.

"A friend persuaded me to quit the old coffee and the starchy breakfast foods, and use Postum Coffee and Grape-Nuts instead. I shall never regret taking his advice. I began using them three months ago.

"The change they have worked in me is wonderful. I now have no more of the distressing sensations in my stomach after eating, and I never have any headaches. I have gained 12 pounds in weight and feel better in every way. Grape-Nuts make a delicious as well as a nutritious dish, and I find that Postum Coffee is easily digested and never produces dyspepsia symptoms."

Name given by Postum Co., Battle Creek, Mich.

There's a reason.

Get the little book, "The road to Wellville," in each pkg.

WILDINGS OF NORTHERN ARKANSAS.

NEVER did I deplore my lack of botanic knowledge as I have since I left my old home, and began wandering in new fields. I find so many beautiful wild flowers here, among the mountains, that are strange to me. Among our first flowers to bloom is a tiny purplish Violet with Pansy foliage, which carpets every available cultivated spot. I have found these and a tiny pale blue, four-petaled blossom, as sweet as Heliotrope, on Feb. 22, in sheltered locations. One of the loveliest wildings is the wild Indigo, which has enormous, erect racemes of the deepest richest, navy blue flowers in May. Each individual floret is the shape and size of a Sweet Pea flower. Another has foliage resembling Calliopsis, and a deep rosy crimson bloom resembling a Shirley Poppy. It grows along the side of wheat fields, mostly, but is found in yards, and also in the woods. It blooms about wheat harvest, and through the summer. I do not know whether it is annual or perennial, the seeds are like a mallow.

Another bloom in September I believe. It is about eighteen inches high and has rosy pink flowers an inch across borne on heads in much the same manner as flax. I think the foliage is like a Phlox. The seeds are borne in pods like Pinks and are as fine as dust.

Wild Daisies are abundant and Ground Ivy, Blackberry Lilies, Perilla, and purple Passion flowers may be found in the woods, while Helenium autumnale is a perfect nuisance, giving a disagreeable, bitter taste to milk and butter when cows get to it. Verbenas cover the mountains, while Cohosh, Rattle-Weed, Valerian and Ferns galore with countless other familiar plants abound.

Lillian Sheppard.

Carroll Co., Ark., Apr. 18, 1905.

Making a Flower Bed.—In making a new flower bed, try having the rows of seeds and plants across instead of lengthwise of the bed. Do not have the rows too close together, and the bed can be easily cultivated with a small hoe. If the flower border is by the side of a stone or board walk it is easy to keep the rows clean of weeds, and the soil loose by getting down on the dry walk, and using an old steel kitchen fork. The same simple implement is very useful about the window garden, to keep the earth in the pots fine.

Amelia Botsford.

Phila. Pa.

Farfugium Grande.—What a beautiful plant Farfugium is, with its dark green waxy leaves spotted with yellow. It makes a beautiful border for a bed. I have used it for several years and advise those who can only have a few plants to give it a trial.

Mrs. Julia Krom.

Ulster Co., N. Y.. Apr. 6, 1905.

A BEAUTIFUL FLOWER BED.

LAST summer, in June, my father dug a cave in our yard but it caved in before being finished, so he just had to fill it in. And such an ugly, clayey corner! I decided to try a flower bed in it. In the centre of the mound I placed a plant of Nicotiana affinis, and around that sowed Touch-me-not seed, then a row of Snapdragon, and around all a row of Sweet Alyssum. Such a bed of beauty as it was! I confess I had my fears, for the soil was nothing but clay, but I never saw flowers as nice anywhere.

Eva Seaburn.

Harrison Co., Mo.

**COFFEE CONGESTION
Causes a Variety of Ails.**

A happy old lady in Wisconsin says:

"During the time I was a coffee drinker I was subject to sick headaches, recurring every 2 or 3 weeks, and sometimes lasting 2 or 3 days, totally unfitting me for anything.

To this affliction was added, some years ago, a trouble with my heart that was very painful, accompanied by a smothering sensation and faintness.

I would be unable to lie down, but was compelled to sit gasping for breath until I was perfectly exhausted.

Dyspepsia, also, a few years ago came to make life harder to bear. I took all sorts of patent medicines as well as doctor's prescriptions, but none of them helped me for any length of time.

"The doctors frequently told me that coffee was not good for me; but without coffee I felt as if I had no breakfast. I finally decided about 2 years ago to abandon the use of coffee entirely, and as I had read a great deal about Postum Food Coffee, I concluded to try that for a breakfast beverage.

I liked the taste of it and was particularly pleased to notice that it did not 'come up' as coffee used to. I had only hoped that the Postum Food Coffee would help my digestion, but I soon found that it was doing much more than that. The bad spells with my heart grew less and less frequent, and finally ceased altogether, and I have not had an attack of sick headache for more than a year. My digestion is good, too, and I am thankful that I am once more a healthy woman. I know my wonderful restoration to health came from quitting coffee and using Postum Food Coffee." Name given by the Postum Co., Battle Creek, Mich.

"There's a reason," and it is this. Coffee has a direct action on the liver with some people, and causes partial congestion of that organ preventing the natural outlet of the secretions. Then follows biliousness, sallow skin, headaches, constipation and finally a change of the blood corpuscles and nervous prostration.

WING PIANOS

Are Sold Direct From the Factory, and in No Other Way

You Save FROM \$75 TO \$200

When you buy a Wing Piano, you buy at wholesale. You pay the actual cost of making it with only our wholesale profit added. When you buy a piano, as many still do—at retail—you pay the retail dealer's store rent and other expenses. You pay his profit and the commission or salary of the agents or salesmen he employs—all these on top of what the dealer himself has to pay to the manufacturer. The retail profit on a piano is from \$75 to \$200. Isn't this worth saving.

Anywhere We Pay Freight
No Money in Advance**

We will place a Wing Piano in any home in the United States on trial, without asking for any advance payment or deposit. We pay the freight and all other charges in advance. There is nothing to be paid either before the piano is sent

or when it is received. If the piano is not satisfactory after 20 days' trial in your home, we take it back entirely at our expense. You pay us nothing, and are under no more obligation to keep the piano than if you were examining it at our factory. There can be absolute no risk or expense to you.

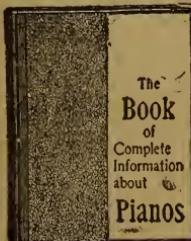

Do not imagine that it is impossible for us to do as we say. Our system is so perfect that we can without any trouble deliver a piano in the smallest town in any part of the United States just as easily as we can in New York City, and with absolutely no trouble or annoyance to you, and without anything being paid in advance or on arrival either for freight or any other expense. We take old pianos and organs in exchange. A guarantee for 12 years against any defect in tone, action workmanship or material is given with every Wing Piano.

Small, Easy Monthly Payments

In 37 years over 40,000 Wing Pianos have been manufactured and sold. They are recommended by seven governors of States, by musical colleges and schools, by prominent orchestra leaders, music teachers and musicians. Thousands of these pianos are in your own State, some of them undoubtedly in your very neighborhood. Our catalogue contains names and addresses.

Mandolin, Guitar, Harp, Zither, Banjo—The tones of any or all of these instruments may be reproduced perfectly by any ordinary player on the piano by means of our Instrumental Attachment. This improvement is patented by us and cannot be had in any other piano. WING ORGANS are made with the same care and sold in the same way as Wing Pianos. Separate organ catalogue sent on request.

You Need This Book

If You Intend to Buy a Piano—No Matter What Make

A book—not a catalogue—that gives you all the information possessed by experts. It tells about the different materials used in the different parts of a piano; the way the different parts are put together, what causes pianos to get out of order and in fact is a complete encyclopedia. It makes the selection of a piano easy. If read carefully, it will make you a judge of tone, action, workmanship and finish. It tells you how to test a piano and how to tell good from bad. It is absolutely the only book of its kind ever published. It contains 156 large pages and hundreds

of illustrations, all devoted to piano construction. Its name is "The Book of Complete Information About Pianos." We send it free to anyone wishing to buy a piano. All you have to do is to send us your name and address.

Send a Postal To-day while you think of it, just giving your name and address or send us the attached coupon and the valuable book of information, also full particulars about the WING PIANO, with prices, terms of payment, etc., will be sent to you promptly by mail.

CHILDREN'S CORNER.

I think I love the
Pansies best, for you used to love them so—

PANSIES FOR THOUGHTS.

Our flowers bright, grow everywhere,
And I love them every one;
No matter, dear, which way I turn,
I can see all you have done;
The fence you made, the walks you laid,
The trellis the Roses climb,
And Morning Glories round our door
Bloom through the summer time.
The shells we gathered—you and I,
One summer long ago,
Surround your favorite flower-bed.
But, dear, you never know,
How much I miss you every year,
Your gentle, kindly ways;
Our garden, more than all things else
Tells me of happier days.

The blooming Peas grow by the wall,
Just as they always grew,
When you were here long, long ago.
How is it, there with you?
I sometimes wonder can you see
The place you thought so dear,
The flowers you loved! all the same,
But yet, you are not here.
Your Pansies grow down near the fence,
They were planted first by you;
Some yellow shades and others white,
Mixed purple, brown and blue.
The Marigolds and Mignonette,
And Flag Lilies near the well,
I remember when you planted them,
But little then could tell,
That you would sleep so silently
Before a year had passed.
And leave me but the memory
Of a dream to sweet too last.

And now each year, your grave I strew
With flowers you loved the best,
And I also knew, dear, in your grave
You clasp them to your breast.
I think I love the Pansy best,
For you used to love them so,
And that is why each year upon
Your grave I watch them grow.

Mrs. M. J. Pidgeon.

Lucas Co., Ohio, Dec. 15, 1904.

AGENTS WANTED Sell \$1 bottle Sarsaparilla for 35¢; best seller; 200 percent profit. Write today for terms. F. R. Greene, 115 Lake St., Chicago

Dear Mr. Park:—I am a little girl eight years old, and go to school. I have a little sister named Ruth. My mamma gets your Magazine, and I like to read all the letters in the Children's Corner. We got some of your seeds, and they grew very nicely. I like all flowers very much, but the Pansy the best. My mamma brought in a nice Pansy since the snow went away. Our Primroses are blooming, and our Cinerarias have buds.

Esther B. Landis.
Lancaster Co., Pa., Jan. 2, 1905.

Dear Mr. Park:—I am a little girl nine years old, and in the fourth grade at school. I have neither brother nor sister. I like to read the Children's Corner. My favorite flowers are Sweet Peas, Thunbergia, Lily of the Valley, Blue Bells, Poppies and Pinks. Mamma is a flower lover. She says I can have a garden of my own, and I love flowers too.

Virginia E. Caton.

Barren Co., Ky., Feb. 3, 1905.

\$2000 FOR A FRUIT FARM

of 160 acres, over 3000 trees—
more than 2000 of them of best
quality of Apples for marketing;
balance Pears and Plums, planted 3½ years. There
are old Apple and Pear trees on the place that bear
almost every year, and plenty of every kind of berries,
Cherries and Grapes; 100 acres are cleared, and 60
acres in timber—White Pine, Oak, Chestnut and
Locust, enough to pay more than half the price; plenty
of good spring water about the farm. A fine place for
chickens and ducks. Water can be piped into all the
buildings from the spring, and enough to provide an
excellent water power for light work. About 1½ miles
from Willow Hill, Franklin Co., Pa., where is located
a new school building, store, creamery and blacksmith
shop. More fruitmen in the community; possession
can be had at once. For further information address

P. W. SHEARER, LaPark, Lanc. Co., Pa.

[Note.—The Editor of this Magazine believes this to be a very
desirable fruit farm, and that it is offered at a bargain price.
Those who are looking for such a farm should write to Mr.
Shearer at once.—Editor.]

I CURED MY RUPTURE

I will show you how to cure yours

FREE

MR. SOLOMON WETZEL, a 57-year-old farmer, living at SOUTH WHITLEY, IND., consulted his physician about his rupture and he told him he could never be cured unless he had an operation. Notwithstanding this, he decided to try once more, and in sending me his order in June, 1902, wrote that this was his last effort to obtain relief. That he was not disappointed is proven conclusively by the following letter, dated March 13, 1904:

"I thought it was my duty to write and let you know I was cured of my rupture. I have a friend ruptured on both sides and gave him your address. I wish you would write him. You certainly have a wonderful Treatment, and I wish you every success. I fooled the doctor who told me I could not be cured."

I was helpless and bedridden for years from a double rupture. No truss could hold. Doctors said I would die if not operated on. I fooled them all and cured myself by a simple discovery. I will send the cure free by mail if you write for it. It cured me and has since cured thousands. It will cure you. Write to-day. **CAPT. W. A. COLLINGS, Box 160, Watertown, N. Y.**

Winter-Blooming Primroses.

Three packets, embracing three superior kinds for winter-blooming, mailed for only 25 cents.

CHOICE WINTER-BLOOMING PRIMROSES.

June is the month in which to sow seeds of the following Choice Winter-blooming Primroses, and I offer first-class fresh seeds of them at the prices quoted, or the entire collection for only 25 cents:

Primrose, Chinese Giant Fringed, a very superior strain from France, the flowers of which are not only beautifully fringed, but of great size and are produced in immense clusters, as represented in the engraving. All of the choicest colors are represented in the mixture. Finest Special Mixture, Price, 10 cts. per packet, three packets 25 cts.

Primrose, New Giant Star, (*Primula Pyramidalis Stellata*) a grand hybrid Primrose similar to *P. Chinensis*, but the plants grow in pyramidal form, becoming from one to two feet high, branching like a tree and bearing a great profusion of exquisite flowers in whorls, and showing many colors. Finest Special Mixture, Price, 10 cts. per packet, three packets 25 cts.

Primrose, Siebold's Giant Fringed. These are superb new hybrids of *P. Cortusoides*, the flowers finely fringed and coming in many colors in elegant clusters. These are rare varieties that will become popular when better known. The plants grow quickly, soon begin to bloom, and continue blooming throughout the winter months. They are window plants of more than ordinary merit, and elicit the praise and admiration of all who see them in bloom. Finest Mixture, Price, 10 cts. per packet, three packets 25 cts.

One packet of each sort, three packets in all, will be mailed for 25 cents; Five collections, 15 packets, for \$1.00. Get up a club.

With every package of these Primroses I will send my booklet "All About Primroses," which tells how to sow the seeds and care for the plants, as well as describes and illustrates many of the most desirable sorts for the garden and window.

The Three Primroses above offered bloom freely and readily during the entire winter season, if plants are started from seeds this month. A Dollar expended in seeds now will yield plants enough for several windows, and the display will be as showy and satisfactory as anything that can be grown. Address

GEO. W. PARK, LaPark, Pa.

Crooked Spines Made Straight

If you are suffering from any form of spinal trouble you can be relieved in your own home without pain or discomfort. A wonderful anatomical appliance has been invented by a man who cured himself of Spinal Curvature. Its results are marvelous. It is nature's own method. The scientific and medical world is amazed at the work being effected. Noted physicians in prominent medical institutions and in private practice are endorsing it. The Sheldon Method relieves the pressure at the affected parts of the spine, the whole spine is invigorated and strengthened, all soreness is taken out of the back, the cartilage between the vertebrae is made to expand, the contracted muscles are relaxed and the spine is straightened. There is bright hope for you, no matter how long you have suffered. We have strong testimonials from every State in the Union. The appliances are being sent all over the world. Each one is made to order from individual measurements and fits perfectly. There is positively no inconvenience in wearing. **We guarantee satisfaction, or refund your money at the end of thirty days' trial.** Write for our new book giving full information and references.

PHILo BURT MFG CO., 242 Sixth St., Jamestown, N. Y.

THE FLOWERS.

Passing a home at a quiet hour,
White crepe on a door I'd seen;
Pinned to the crepe was a lovely flow'r
And touched with a bit of green.
I thought of the child which in silence lay,
And the pure white crepe and flow'r,
For the child did oft in the garden play,
To while weary hours away.
Now that the little one took its leave,
The flow'r's did still remain,
Like those at home they too did grieve,
And seemed to be in pain.
Then when the child was lowered down,
It lay on a bed of flow'rs,
And no dry eyes could there be found,
As tears came down in show'rs.
Yes the flowers too have a mission here,
And what could take their place?
The sweetest thing in any sphere,
And admired by every race.

St. Louis, Mo.

Albert E. Vassar.

CORRESPONDENCE.

Mr. Park.—I have in my mind an old Colonial Mansion in a neighboring village, built when there was plenty of room and land. The building stands back from the street, with an immense lawn smooth as velvet, and stately trees in front, but no fence to obstruct the view. In front of the wide porch, with its immense pillars, is a large stone fountain, the base of which in summer is hidden with luxuriant ferns. Below this is an immense circle, half on each side of the walk, planted in huge clumps of Paeonies, seven varieties, alternating with Crown Imperial. These Paeonies have been there, I am told, for thirty or forty years nearly undisturbed. There must be fifty or sixty clumps, and I am told that when in bloom it is a most beautiful sight. It was winter when I saw it, but if I live I shall go there next year when the Paeonies are in bloom.

Lucy D. Murray.

Saratoga Co., N. Y. Dec. 1, 1904.

Bee Culture.—The A. I. Root Company of Medina, Ohio, have forwarded to the Editor a book entitled "The A. B. C. of Bee Culture." It is a volume of nearly 500 pages, neatly printed and fully illustrated, and is a treasury of information to the Apiarian, who can readily turn to any special subject, because of its comprehensive arrangement. As honey is the most wholesome and easily digested of sweets its use is deservedly increasing, and the work of the Apiarian is becoming more profitable. This book tells all about the management of bees, and its advice will be found reliable and up-to-date. Its price is \$1.20.

HEAD NOISES

How To Cure Buzzing, Ringing Sounds in the Ears

Do you have buzzing, ringing noises in your head and ears? Is there a snapping in your ears when you blow your nose? Then you have Catarrh in your ear passages, and your Eustachian Tubes—the passages from the throat to the ears—are closing up. You may have no discharge from the nose or throat, but the delicate inner parts of the ear are steadily being destroyed. Those

irritating noises show how dangerous the trouble is becoming. As they grow worse they often worry people into nervous prostration and insanity. There's one thing certain—**Head and Ear noises are always the forerunner of loss of hearing.** Neglect the trouble in your ear passages and deafness is the result.

Get rid of your head noises now and forever. They can be cured. Write today to Deafness Specialist Sproule, the famous authority on all ear troubles. He will give you

Medical Advise Free on this trouble. It's just the help you need. He'll tell you without any charge whatever how to drive away the noises and have clear, distinct, perfect hearing. Answer the questions, yes or no, write your name and address plainly on the dotted lines, cut out the Free Medical Advice Coupon and mail it at once to **Deafness Specialist Sproule, 232 Trade Building, Boston.**

FREE MEDICAL ADVISE COUPON

Do your ears throb?
Do your ears feel full?
Is your hearing failing?
Do the noises trouble you at night?
Is the sound sometimes a buzzing one?
Is the sound sometimes a ringing one?
Are the noises worse when you have a cold?
Do your ears crack when you blow your nose?

MY \$1. CURE for PILES FREE TO TRY

Don't neglect Piles—They lead to the deadly cancer—but try my new 3-fold treatment which is curing thousands.

SEND YOUR NAME TODAY

Every reader of PARK'S FLORAL MAGAZINE who answers this advertisement will promptly receive—**Free to try**—my complete new **3-fold Absorption cure for Piles, Ulcer, Fissure, Pro-lapse, Tumors, Constipation, and other rectal troubles.** If you are fully satisfied with the benefit received from my treatment, when you get it and try it, send me One Dollar. If not it costs you nothing. **You decide.** My 3-fold treatment is curing some of the worst cases on record—cases of 30 and 40 years' standing, as well as all the earlier stages. It brings instant comfort to all and the cure is permanent because the treatment is constitutional as well as local, removing the causes of piles.

Here's what you get **free on approval** (see illustration above): 1. **My Absorptive Plasma**, which quickly heals all itching and soreness. 2. **My Muco-Food Cones**, which cures constipation and nourish the membrane. 3. **My Pile Pills**, which remove the causes of Piles and Constipation.

We have hundreds of letters like these:

I will say to all sufferers from Piles that I am 78 years old now. I had suffered more than 40 years from Piles, but after using Dr. Van Vleck's Absorption Pile Cure, I have been entirely free from them. This was a year ago, so I am sure my cure is complete and permanent. JOHN H. SCHLEVOIGT, N. Attleboro, Mass.

I suffered untold agony until I received your Treatment. I had tried our family doctor, and all kinds of patent medicines I got at drug stores, but they did me no good. Your wonderful remedies have now cured me of a very bad case of Piles, and I will recommend your treatment to anyone who is suffering from rectal diseases.

(Above from a prominent Pittsburgh lady.) My valuable new **pile Book** (illustrated in colors) comes free with the approval treatment, all in **plain package**. Send **No Money**, only your name—to Giles W. Van Vleck, M. D., L. L. D., 691 Majestic Bldg., Jackson, Mich. Write to day.

EXCHANGES.

Lemon Lily, and Purple Lilac, for Roses and hardy plants, Mrs. M. Manville, Brookfield Centre, Conn.

CORRESPONDENCE.

Dear Mr. Park.—I have been receiving your Magazine for a long time, and it has been such a help to me in caring for my flowers. I received a packet of mixed seeds last spring in which I found a few Pansy, and Aster seeds; these I planted by themselves, and oh what beautiful flowers I had. One Pansy was coal black, one snow white, one the nearest red, I ever saw in a Pansy, and one was ruffled, the first I ever saw. The Aster were lovely, one white was the handsomest white Aster I ever saw. Mrs. Newman.

Summit Co., Ohio., Feb. 28, 1905.

Dear Editor:—I write to thank you for the valuable information I have gained from your Floral Magazine, as I have been a subscriber for about seven or eight years, and would not do without the Magazine for anything.

I have an Ivy plant and I can almost see it grow; I also have a Creeping Charley and a Live-Forever plant, that are just reveling in this nice weather. I had some Ragged Robins last year that were simply beauties by themselves. I grew them in an old wooden bucket; they were pink and white. Mrs. Carrie Craig.

Medoc Co., Calif., Apr. 17, 1905.

CHILDREN'S CORNER.

Dear Mr. Park:—I am a little girl ten years old. I live in the country. My mother takes your Magazine and has taken it eight or nine years. I like flowers so well that I have no favorites. I go to school and Sunday school every day I can. I am in the fourth grade.

Oleta Kathleen Englerth.
Faribault Co., Minn., Feb. 6, 1905.

Mr. Park:—As Mamma is going to send for some flower seeds I will write. My Mamma takes your Magazine and I like it very much. I am a lover of flowers. I do not think we could raise flowers if it was not for your Magazine. I am twelve years old. I go to school and am in the fifth grade. For pets I have a cat and a squirrel. I like to read the Children's Corner very much. Hazel Walker.

Dear Mr. Park:—We get your Magazine, and I delight in reading the children's letters. I have three little brothers. The oldest is eight years, the other five years and the youngest one year old, and I am ten years old. We go to school every day that we can. My choice flowers are Pansies, Sweet Peas and Roses. I like your Magazine. May Heckman.

Cumberland Co., Pa., Jan. 11, 1905.

Dear Mr. Park:—I am a little girl twelve years old, and go to school. My favorite flowers are Carnations and Lily-of-the-Valley. My pets are a cat named Tom, a dog named Seldom, and a Bantam hen. My mamma takes your Magazine, and I like it very much. I live in the country and have lots of fun.

Eva Corp.
Mackinac Co., Mich., Jan. 6, 1905.

Dear Mr. Park:—I am a little girl ten years old, and in the fifth grade at school. Mamma takes your Floral Magazine. I love to read the Children's Corner. For pets I have a pair of doves, named Mabel and Harry, and two tame hens. I have no sisters nor brothers. Mamma has a good many flowers.

Laura Kratzer.
Cayuga Co., N. Y., Oct. 8, 1904.

Water Hyacinth.—This is one of the most beautiful of water plants, and is of easy culture. Simply wrap the roots in a bit of Shagnum Moss and put in water where it will not float away. The curious, inflated leaf-stems with their shining green leaves, among which the elegant spikes of lavender, gold-blotted flowers appear, will soon be a mass of beauty, eliciting the admiration of all who pass. The plants are rare at the north, and offered by very few dealers. Five plants will be sufficient to stock a pond six or eight feet across, as they increase rapidly. They can be obtained by mail for 35 cents.

THE CHILD'S WISH.

Were I a bird I'd fly to Heaven
Where fruit each month to trees is given
Twelve kinds of fruit upon one tree,
How pleasant such a land must be.
Sagadahoc Co., Me. Alice May Douglas.

GOSSIP.

Mr. Park:—My little girls like to read your Magazine, and I am going to give to each of them a packet of your seeds and a place to plant them. I love flowers for the sake of their own purity and beauty. The children even go to the Magazine for their declamations for school.

Chautauqua Co., N. Y. Mrs. E. F.

Dear Sisters:—Have you grown the Scabiosa, or Mourning Bride, as it is familiarly called. I had them last summer. The colors ranging from pure white to darkest crimson. They are so nice for cutting as they have such long stems. I gathered bouquets as late as the sixth of November when it was cold enough to make ice at night. I had several shades of lavender besides the red and white. Mrs. D. A. Sharpless.

Philila. Pa., Nov. 9, 1904.

Floral Sisters:—If you want something very nice, both in foliage and blossoms, plant Tuberous Begonias. They are just grand. Use woods dirt, old rotten manure and sand, and good sized pots, as they hold moisture better. Keep in partial shade and do not let them want for water. Just try some this summer. Emma Head.

Forest Co., Pa.

Dear Floral Friends:—Park's is certainly a gem. I have several volumes, ten years or more old to which I am largely indebted for my success in floriculture. It is a veritable mine of information. Whenever I meet with a new plant I usually find something about it there, and the best part of it is that our floral encyclopedia is constantly being revised.

I do no know much about the exchange column and its benefits as I never had enough of anything to offer but I made one very dear acquaintance through this medium. L. Sheppard.

Carroll Co., Ark., Apr. 18, 1905.

CHILDREN'S CORNER.

Dear Mr. Park:—I'm a little girl nine years old, and I am in the fourth reader. My mamma has fifty four plants, and has been taking your Magazine for about seven, or eight years. I like to read the Children's Corner. I like the Moss Rose the best of all. We have a Moss Rose.

Tressie Hart.

Osborne Co., Kan., Nov. 3, 1904.

Dear Mr. Park:—As mamma is sending for Pansy seeds I will write to you. I like to read the Children's Corner real well, and am very fond of flowers. My mamma has taken your Magazine for several years, and we like it very much. My pets are a little dog named Tuff, an old cat and five kittens, and a little black calf named Josie. We have a great many flowers, and I have a little bed of Johnny Jump-ups all my own. Gladys Paschall, Fulton Co., Ind.

Dear Mr. Park:—You have been sending me the Park's Floral Magazine for the past years. I like it, so I will have it renewed now. I am going to send for some flower seeds with it. I had some lovely Poppies and Morning Glories from your seeds last year. I am a little girl eight years old and go to school, and am in the fourth grade. I have a kitten for a pet.

Elizabeth Harris.

Middlesex Co., Mass., Feb. 15, 1905.

Dear Mr. Park:—Mamma takes your Magazine. She said she could not get along without it. She gets her seeds from you every year. She likes them better than any other seeds. I am seven years old. I go to school, and I like my teacher. For pets I have a dog and a cat. I have one doll. I like flowers. My favorite flower is the Rose.

Hazel Phinney.

Swift Co., Minn., Jan. 9, 1905.

*Magic Foot Draft Co.,
691 Oliver Bldg.,
Jackson, Mich.*

Gentlemen : You may send me a pair of MAGIC FOOT DRAFTS FREE TO TRY, as advertised in PARK'S FLORAL MAGAZINE.

Name _____

Town _____

State _____

We agree to send prepaid, as soon as we get your address, a regular dollar pair of the celebrated Magic Foot Drafts (the genuine.) Test them thoroughly, and then if you are fully satisfied with the benefit received, you can send us the price, One Dollar.

TRADE MARK

MAGIC

No other remedy ever made such a record, and that is why we can send them out on this remarkable plan, which would mean quick ruin for the makers if the Drafts didn't cure a phenomenal proportion of cases. They cure by drawing out the acid poisons and impurities that cause rheumatism through the great foot pores, which afford natural and easy connection with both the blood and the nervous system. It is the simplest, surest and most harmless remedy on the market. Check the disease now before more harm is done, for if neglected the acid poisons accumulate day by day until the joints become solidified in horribly distorted shapes and relief from the indescribable suffering is beyond the power of man to give. Send your name today for the free trial pair to the Magic Foot Draft Co., 691 Oliver Bldg., Jackson, Mich. A remarkable book (in colors) on rheumatism comes free with the Drafts. Send no money—only your name.

Seeds of the Best Vegetables!

Enough for the Family Garden, Only 10 Cents.

The following collection embraces the best varieties of Vegetables for the family garden. It will be mailed to you (ten packets) for only 10 cents.

Beet, Improved Edmand.—A perfect Beet for family use, surpassing all others. It is early, of large size, blood red, never woody, but always tender, very sweet, rich and melting. Very productive and keeps well until spring. Use it once and you will have no other. Per oz. 5 cents, $\frac{1}{4}$ lb. 12 cents, 1 lb. 35 cents.

Cabbage, Select Early Jersey Wakefield.—This is the earliest Cabbage in cultivation, and the strain offered bears heads almost twice the size of the common Wakefield Cabbage, while it is short-stemmed, very solid, and can be used throughout the season. It is sure to head, and is sweet, crisp and delicious, either raw or cooked. It is certainly the best early Cabbage. Per oz. 12 cents, $\frac{1}{4}$ lb. 40 cents, 1 lb. \$1.50.

Cabbage, Excelsior Late Flat Dutch.—For the main crop this is the best of all varieties of Cabbage. Every plant forms an immense, solid head, sweet, crisp, tender, does not often burst, and keeps well throughout winter. It can truly be called Excelsior, as there is no other late variety that can excel it in any respect, no matter how highly described or how wonderful its history. This is the best late Cabbage. Nothing can be better than the best. Per oz. 12 cents, $\frac{1}{4}$ lb. 40 cents, 1 lb. \$1.50.

Corn, Country Gentleman.—This is one of the finest varieties of Corn in cultivation, of delicious flavor, tender, very sweet and remaining useful for a long time. It is medium early and very productive; every stalk bearing from two to four ears. The ears are of good size, and well filled with pearly-white grains of great depth. It is certainly the best family Sweet-Corn known. 2 oz. 6 cts, $\frac{1}{2}$ pt. 13 cts, 1 pt. 26c., 1 qt. 45c.

Cucumber, Early White Spine.—A standard variety, with vigorous, healthy vines, bearing an abundance of large, even-shaped fruit, and unsurpassed for either slicing or pickling. It is without a doubt the finest Cucumber in cultivation. The seeds offered of this Improved Cucumber are fresh, and can be depended on for a large crop. Oz. 15 cents, $\frac{1}{4}$ lb. 50 cents.

Lettuce, Improved Hanson.—A very superior Lettuce, coming early and continuing tender and usable longer than any other sort. The leaves are beautifully curled and crimped, rich greenish golden yellow, densely arranged and devoid of the unpleasant bitterness of most sorts. Oz. 8 cents, $\frac{1}{4}$ lb. 25 cents.

Onion, Wethersfield Early Red.—This is a superior Onion, that matures early, yielding large, solid, mild-flavored bulbs that keep well until Onions come again. It produces large bulbs from seeds the first season when sown early, thinned and cultivated. For sets sow thickly. Oz. 10 cts, $\frac{1}{4}$ lb. 35 cents, 1 lb. \$1.25.

Radish, Choice Mixture.—For the family garden a mixture of early, medium and late sorts is most satisfactory, as the Radish bed will thus supply the table throughout the season. I offer a first-class mixture of the best sorts, that will be sure to please. Ounce 5 cents, $\frac{1}{4}$ lb. 15 cents, 1 lb. 50 cents.

Tomato, Improved Beauty.—A very early Tomato, large, smooth and solid, borne in fine clusters, sweet and of rich flavor. Does not wrinkle, rot or crack, as many early Tomatoes do. Excellent for either slicing or canning. Unsurpassed as an all-round sort for the family garden. Oz. 15c., $\frac{1}{4}$ lb. 60c, 1 lb. \$1.50.

Turnip, Purple-top White Globe.—This new variety surpasses all others in quality, productiveness, and long keeping. Its growth is quick, and the flesh is white, crisp, tender and sweet; exceeding all other varieties for table use. For stock feeding it is of great value, being an enormous yielder. Oz. 5c., $\frac{1}{4}$ lb. 15c.

Only 10 cents for the above ten packets, enough to plant your Vegetable garden. Ask your friends to send with you. For each additional order you may select one of the following, or all, 22 packets, for a club of twenty (\$2.00):

Asparagus, Bush Bean, Pole Bean, Cauliflower, Carrot, Celery, Egg Plant, Kohl Rabi, Leek, Muskmelon, Okra, Parsnip, Parsley, Pepper, Pea, Champion of England, Pea, Alaska, Spinach, Squash, Tomato, Turnip Rutabaga, Watermelon, Herb, Lavender.

Any number of packets, your selection, 3 cents each, or all, together with the 10 packets above described, 32 packets in all, for only 30 cents. You can thus secure enough seeds for a large Vegetable garden by a half hour's work among your friends. Get up the club early, before your friends have ordered their seeds from others. Address **GEO. W. PARK, La Park, Lanc. Co., Pa.**

Please note, that I will send 32 packets of the best Vegetables for only 30 cents, or two lots, 64 packets, for 50 cents. Order promptly. Send for booklet, giving illustrations and full descriptions with cultural hints.

Park's Floral Magazine One Year on Trial. For 15 Cents

I will mail to you Park's Floral Magazine one year on trial, Park's Giant Star Flower, a packet of 200 seeds, and Park's New Giant Striped Maize, one packet.

You will never regret accepting this liberal offer. The Magazine you will find a "must-have," as it will insure your floral success. The Giant Star Flower is a grand novelty for a bed or group, and also makes a fine sub-tropical plant for the piazza. It has enormous leaves and bears huge trusses of lovely, fragrant, creamy flowers, on stalks six feet or more high, throughout the season. The Giant Maize has beautiful foliage, graceful in form and showing white, green, gold and carmine, all superbly contrasted in the same leaf. In good soil plants will grow ten to twelve feet high, displaying a mass of foliage. You ought to secure this premium. Seeds may be sown in May or June. Order now. Address **GEO. W. PARK, La Park, Pa.**

If you subscribe for five years, sending 50 cents, add five cents more and I will include this premium also

GET UP A CLUB.—For a club of five subscribers upon the above offer (75 cts.) I will send the agent the four Sterling Novelties described on the first or title page of this book. See your friends and send your club in as soon as possible.

PANSIES AS A PREMIUM. For size, variety and attractiveness no Pansies in the world surpass the superb race developed by the celebrated German specialist, Mr. Frederick Roemer. I have imported a great quantity of these seeds direct from Mr. Roemer, and offer a splendid collection of **10 packets**, each packet embracing different shades and markings, to anyone who sends **25 cents** for a year's subscription to **Park's Floral Magazine**. Don't miss this splendid opportunity to secure a fine collection of Roemer's Giant Prize Pansies, but send 25 cents at once, and your name will be entered on my subscription list and the seeds sent by return mail. You will find the Magazine helpful, and the Pansies grand beyond compare—altogether an investment you will never regret. If you are already a subscriber, you can have the magazine sent to a flower-loving friend. Address **Park, La Park, Pa.**

A GRAND PREMIUM.

That all who love and cultivate flowers may become acquainted with **Park's Floral Magazine**, a practical, illustrated monthly, devoted entirely to flowers, I will mail these 14 packets choicest seeds with **Magazine** one year for only 15 cents.

Double Petunia. New Fairy, a very beautiful sort for either beds or pots; flowers of various shades, very double, like fluffy balls of exquisite texture and rich color. Seeds saved from the finest hybridized flowers, and fully 25 per cent. will be found true. Cultural directions with every packet. This superb Petunia is sold by most dealers at more per packet than I ask for this whole collection of 14 packets and Magazine one year. It's a great bargain, and made simply to gain friends. The small wood engraving fairly represents this Petunia. Packet contains 20 to 30 seeds.

Mr. Park: I purchased a packet of Double Petunia seeds from you and I think every seed grew. Some damped off after germinating, but enough were saved for a large bed, but there were many shades of color and various markings. Nearly all were double. The few that were single, however, were very beautiful, nearly or quite as fine as the double ones.—L. M. Freeman, Woodbury Co., Ia., Oct. 10, 1904.

Alyssum. Carpet' or Trailing, a lovely, continuous-blooming, fragrant basket and edging plant.

Antirrhinum. Calceolaria-flowered; new spotted, striped, self-colored fragrant Snapdragon; mixed.

Chrysanthemum. Annual, Double and Single; a dozen splendid varieties mixed; all colors.

Daisy. Giant Double, mixed colors; flowers large, rich in color; plants hardy and free-blooming.

Mignonette. Giant Red, a grand new sort, deliciously scented and very handsome.

Marigold. French, African, etc., mixed; thirty varieties, embracing all the new choice sorts.

Maurandya. a lovely trellis or screen vine, graceful and beautiful; large Foxglove-like flowers.

Pansy. Giant Fragrant, 25 shades mixed; immense, rich flowers, most of which are fragrant.

Petunia. New Striped Bedding, in fine mixture; very floriferous, constant and fragrant.

Pink. Japanese, Single and Double, in finest mixture. Bloom first season and are everblooming.

Poppy. Dwarf Ranunculus-flowered, bushy plants; rich double bloom; all the colors mixed.

Zinnia Pumila, fl. pl., an elegant bedding Zinnia; very double, of many colors; mixed.

Complete Mixture, 1000 sorts, showing something odd or new every morning during summer.

GET UP A CLUB.—Any one of the following send for a club of two, or all for a club of twelve:

Aster. Rose-flowered, large, double, 20 sorts mixed.

Candytuft. splendid annual, superb colors, mixed.

Carnation. Margaret, double, superb, very fragrant.

Dahlia. Large Single; many colors mixed; beautiful.

Lobelia. New Perpetual-flowering, rich blue, fine.

Morning Glory. New Japanese, all colors.

Zinnia. New Lilliput Bouquet, finest double; mixed.

Nasturtium. Climbing, mixed; including new sorts.

Pansy. New English-faced, fragrant, large; 25 sorts.

Petunia. New Rich Bedding, superb flowers; 25 sorts.

Poppy. New Dwarf Peony-flowered, 15 finest sorts.

Schizanthus. the Butterly Flower; 15 sorts.

Snadragon. new and old, splendid mixture.

SEARS, ROEBUCK & CO., CHICAGO

Farm For Sale

Containing 500 acres in the beautiful Mad River Valley of the Green Mountain State. Large orchard, producing over 2,000 bushels of the best varieties of apples in 1904, also pears, plums, cherries and small fruit in abundance. Two good houses, two barns, two sugar houses, two wood-houses, two corn barns and a silo. All buildings in excellent repair. Never failing spring water running to the houses and barns. Two large sugar orchards, containing 5,000 sugar maples, in 1904 averaging three pounds of sugar to the tree, which sold from ten to fifteen cents a pound. Having come to a retiring age I desire to dispose of this property. For further information, address **Nathan Boyce, Waitsfield, Vermont.**

CHILDREN'S CORNER.

Dear Mr. Park:—I am a girl ten years of age. I live with my grandma. She takes your Magazine and often sends to you for seeds. I always look for the Children's Corner. I like to read it. I love to read the poetry in your Magazine.

Leona Sargent.

Meigs Co., Ohio, March 5, 1905.
Dear Mr. Park:—This is my first letter to you. I am ten years old. For pets I have a pony named Midget, and half a dozen white chickens. My favorite flowers are Arbutus, and Sweet Peas. My mother takes your Magazine, and I like it very much. I go to school. My teacher is kind and pleasant.

Etta Cheeseman.

Mackinac Co., Mich., Jan. 6, 1905.

The Best Perennials.

A Collection of the best kinds--the seeds of which should be sown in June and July, to bloom the next season.

AQUILEGIA--COLUMBINE.

PLATYCODON GRANDIFLORA.

Poppy, New Hybrid Perennial, the most gorgeous of garden perennials, perfectly hardy, beautiful in foliage, and grand in flower, measuring from six to twelve inches in diameter. I offer a special mixture made up from the finest named sorts. Price, 5 cents per packet.

Aquilegia or Columbine, finest large-flowered, long spurred sorts in all colors—white, blue, red, yellow and variegated, single and double in carefully proportioned mixture Price, 5 cts. per pk.

Campanula—Canterbury Bell, the elegant large-flowered single and double varieties, as also the beautiful Cup and Saucer sorts in all the choice colors—white, blue, rose, striped, etc., all in splendid special mixture. Price, 5 cents per packet.

Pea, Perennial, the New Giant sorts, the plants of which are perfectly hardy, bloom continuously and freely and are unsurpassed for beds, as well as trellises: all colors, as rose, white, scarlet, flesh, etc., in finest special mixture. Price, 5 cents per packet.

Carnation, Hardy Garden, double, deliciously fragrant, and of many bright colors, as well as variegated; elegant either for beds or pots. Finest Mixture. Price, 5 cents per packet.

Pink, Park's New Everblooming, a new class of Dianthus plumarius or Pheasant's Eye Pink, the flowers of which are, double, semi-double and single, bright in color and beautifully marked, and produced throughout the season; deliciously clove-scented; grand for a bed or border. Finest Mixture, Price, 5 cents per packet.

Saponaria Ocyoides Splendens, a superb plant for a mass of bloom in May and June; flowers small, pink, in clusters in wonderful profusion, making a carpet of charming color; hardy and of easy culture. Price, 5 cents per packet.

Sweet William, New Giant Flowered, among the most gorgeous and sweet of garden flowers; single and double, of richest colors, appearing in grand clusters or heads, and scenting the entire garden with rich perfume. Finest Special Mixture. Price, 5 cents per packet.

Platycodon grandiflora, The large-flowered Platycodon is a first-class perennial, hardy, showy beautiful and long-blooming. Plants grow from one to two feet high, bearing large, graceful white and blue flowers, not unlike an open Campanula or Bellflower. Once started they will take care of themselves. Should be in every garden. Special Mixture. Price, 5 cents per packet.

Primrose, Hardy Perennial. The hardy Primroses are among the most beautiful and fragrant of our garden flowers. They are showy in the border, and always greatly admired, while any person can succeed with them, being of easy culture, lasting and hardy. I offer a choice special mixture of the finest sorts and colors. Price, 5 cents per packet.

Myosotis Alpestris. Whatever you think of omitting from your garden do not omit the charmingly beautiful Forget-me-not—Myosotis Alpestris. It is elegant as a border or edging the next season, and if the plants are massed they make a most pleasing carpet of bloom. I offer a splendid mixture of all the fine colors. Price, 5 cents per packet.

The above choice collection of perennials, retailing at 55 cents, I offer during June and July for 35 cents, or two collections at half price, 55 cents. Get your neighbor to club with you and order two collections (22 packets) this month. Address

GEO. W. PARK, LaPark, Lancaster Co., Pa.

A CHANCE TO MAKE MONEY

I have berries, grapes and peaches a year old, fresh as when picked. I used the California Cold Process. Do not heat or seal the fruit, just put it up cold, keeps perfectly fresh and cost almost nothing; can put up a bushel in ten minutes. Last year I sold directions to over 120 families in one week; anyone will pay a dollar for directions when they see the beautiful samples of fruit. As there are many people poor like myself, I consider it my duty to give my experience to such and feel confident anyone can make one or two hundred dollars 'round home in a few days. I will mail samples of fruit and full directions to anyone of your readers for (19) two cent stamps, which is only the actual cost of the samples, postage, etc. FRANCIS CASEY, St. Louis, Mo.

YOUR FORTUNE TOLD FREE

which I will send free to anyone. Tells how to cure yourself of any of the above named symptoms at your own home. This book describes every detail, as well as the different forms of Deafness and Catarrh, also all diseases of the head, nose and throat. Has pictures illustrating the different diseases, so that all readers can understand the nature of their trouble, what has caused it, what it will lead to, and most important of all, tells of a wonderful new discovery that can be used at home without danger and inconvenience, and will give them immediate relief and effect a permanent cure, regardless of the nature of the affliction or how long it has existed.

Book also gives many suggestions, how to eat, live, diet, bathe, and exercise, etc. Every family should have one of these books. It gives more plain facts about Deafness, Catarrh and diseases of nose and throat than any book published. Send for one of these books, and tell your friends about this offer. The books are free.

THESE PEOPLE WERE CURED OF DEAFNESS AND CATARRH:
A BOY'S STATEMENT WHICH REVEALS WONDERFUL FACTS.

Schultz Martine, of Storm Lake, Iowa, 14 years old, had attack of scarlet fever when 3 years old which affected hearing, followed by severe earaches. 2 years ago an attack of measles caused complete deafness. Treated with many doctors; instead of improving, his condition became worse. After years of suffering finally used Dr. Coffee's treatment and obtained perfect hearing.

80 YEARS OLD—CURED OF DEAFNESS.
Washington Hunter, of Davenport, Neb., took a severe cold 2 years ago last winter which made him completely deaf in one ear and partly so in the other. After many unsuccessful attempts to obtain relief, commenced the use of Dr. Coffee's home treatment, which proved beneficial from the start; after continuing for 3 months a complete cure resulted.

HAD CATARRH TWENTY YEARS—CURED IN TWO MONTHS.

Mrs. Susanna Peden, Norborne, Mo., 66 years old, had suffered from Catarrh of Head as well as from Constitutional Catarrh for twenty years. Her hearing and sight were affected, constitution completely broken down. She used two months' treatment; sight and hearing are good as ever, and general health better than it has been for twenty years. Every trace of Catarrh has disappeared.

74 YEARS OLD—HEARING RESTORED.
Mr. Eli Snyder, of Altoona, Iowa, says: I am 74 years old, was afflicted with catarrhal deafness for a number of years, was gradually growing deaf. I took a severe cold recently which settled in my head, making me almost totally deaf. Used Dr. Coffee's Absorption Treatment for two months and obtained perfect hearing.

DR. W. O. COFFEE, 871 Century Building, Des Moines, Ia.
